Juan Guillermo Barrios Villamil

Electronic Engineer | High Risk Operations | Data & Business Analysis

Bogotá, Colombia · juguibavi27@gmail.com · LinkedIn · linkedin.com/in/juan-guillermo-barrios-villamil-474733234 · GitHub · github.com/barriosj136-oss

PROFILE

Electronic Engineer from Universidad de los Andes working in Iron Mountain's High Risk function. Reviews account and billing records, investigates discrepancies, coordinates case follow-up, and builds reports, charts, and automation logic to support team prioritization. Sometimes explains payment requirements when customers ask about restoring service; account reactivation is decided by authorized teams. Seeking junior Data Analyst, BI Analyst, Business Analyst, or Operations Analyst roles.

EXPERIENCE

Strategic Planning & High-Risk Account Specialist

Iron Mountain · Hybrid · May 4, 2026 – Present

- Review and prioritize high-risk cases, track statuses, and coordinate operational follow-up across the broader High Risk function.
- Use Excel to compare account, invoice, payment, inventory, and service records; validate information and investigate billing discrepancies.
- Design and build reports, charts, and automation logic that help identify accounts for review and route follow-up consistently.
- For some inactive accounts, explain outstanding invoices and payment requirements when customers ask about restoring service; refer account-status and accounting decisions to authorized teams.

IT Support Assistant

CivilTech Ingeniería y Construcción S.A.S. · Dec 2025 – Jan 2026

- Supported software quality testing and electronics inventory management; explored sensor-related business opportunities.

Customer Service Agent

Foundever de Colombia · Feb 2025 – Jul 2025

- Responded to customer requests in an English-language support environment.

EDUCATION

Electronic Engineering · Universidad de los Andes · Degree awarded October 20, 2025

Thesis: IoT automation of electronic systems with an adjustable voltage source and an AD9833 signal generator.
